INTERVIEW SUMMARY

Box RCE
Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-14501

Dear Sir:

On June 30, 2004, the below-signed attorney for the Applicants participated in a telephone interview with Examiner Smith and Primary Examiner Marschel to discuss the rejections lodged in the office action dated April 2, 2004, in light of an amendment to claim 30 proposed by the Applicants' attorney. Specifically, the issues of written description and obviousness over the Cabib et al. reference cited by the Patent Office were discussed.

Examiners Smith and Marschel agreed that the proposed amendment, which is being entered in the response to the office action accompanying this interview summary, met the written description requirement, as the amended claim encompassed the use of the recited image analysis techniques to create the cytoplasm and membrane masks, and did not encompass the use of externally applied physical impediments outside of the cell and placed in a signal path to block fluorescent signals from reaching a signal detector.

Examiners Smith and Marschel also agreed that amended claim 30 overcame the obviousness rejection over the Cabib et al. reference.

Respectfully Submitted,

By:
